DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 20 is rejected under 35 U.S.C. 103(a) as being unpatentable over JP 2003-287620 or JP 2003-193053.

The references disclose a compound represented by the formula (III), wherein Y group is a single bond and Z is C₁₋₂₀ hydrocarbon. The compound of this type is shown in section [0032] of JP '620 and sections [0056] and [0059] of JP '053. Although the present compound having a group n-C₅H₁₁ is not exemplified in the reference, however, the references did show the compound of group C₂H₅. Therefore, it would have been obvious to those skilled in the art to modify the chain-length of carbon atom to arrive at the claimed compound because the hydrocarbon chain-length (C₁₋₂₀) of the reference encompasses the present group n-C₅H₁₁.

3. It is noted that the filing date of the priority document is not perfected unless applicant has filed a certified priority document in the application (and an English language translation, if the document is not in English) (see 37 CFR 1.55(a)(3)).

Art Unit: 1756

4. Claim 21 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 1-19 and 22-26 are allowed.

Response to Arguments

6. Applicant's arguments filed 5/11/06, with respect to the rejections of claims in the previous Office action have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground of rejection is made in section 2 above.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shean C. Wu whose telephone number is 571-272-1393. The examiner can normally be reached on 9:30 AM to 6:00 PM.
